Applicants correspondence address if different to premise address	Date application assessment process began	Date(s) contact made between police licensing officer and applicant or other	Name of other person acting on behalf of applicant
	10/03/11	<p>Liz</p> <p>Apologies for the delay in response.</p> <p>I confirm that your below proposed condition is acceptable and I authorise the licensing authority by virtue of this e-mail to amend the operating schedule of the application accordingly.</p> <p><i>An adequate CCTV system must be installed at the premises. The system must be in place and fully functional before any licensable activity can take place and it must be maintained in full working order thereafter including whenever the premises are used for licensable activities. The system shall adequately coverage all public areas of the premises both internal and external including all entrances and exits and provide images of evidential standard. All images must be retained for a minimum of 30 days and such images must be made available for the Police to view or remove for evidential purposes. Relevant staff are to be trained and able to use the system.</i></p>	

	<p>For avoidance of doubt, the condition will replace the condition already in the operating schedule dealing with CCTV.</p> <p>I do not have development schedule for the premises yet. Acquisition is dependent on obtaining both planning and licensing. Planning is now in place but as the premises licence has received 3 interested party representations to date, it will go to hearing on the 18th April.</p> <p>I will keep you updated as to progress, as I am sure will David Carvell.</p> <p>Regards Nigel Connor Solicitor Head of Licensing and Regulatory Law</p>	
--	---	--

<p>Thames Valley Police <u>Do Not</u> object to the granting of this premises licence application with the above alterations to the operating schedule</p>	<p>Signed Liz Hodgkinson C1047 (Name of police licensing officer or ABO etc)</p>	<p>Date 30/03/11</p>
