Mrs Nunn

Is this correct?

Kind Regards

Hello,

an afternoon would be better please.

They complained about the soundcheck from the band. They were however sat at the end of there garden when I went outside to check on the noise.

The volume was reduced and the engineer changed the frequencies regardless and their was no further complaints.

Jason

Please support the Crawford Arms. We currently going through a license application for a few changes to help us grow and improve.

The possible representation must relate to at least 1 of the 4 or all 4 of the Licensing objectives if you think we do things to promote the objectives. So things like we have proactive staff who supervise the area and help against public nuisance and against local crime etc.

This is mainly for Wolverton Residents, but any positive representations See more

Paul Williams You seem to be doing all the right things, but I don't know if you need any more. As someone who has sat on them committees. Although obviously having heard this, I won't be sitting on the committee itself.

James Joyce Juice just sent them an email bro.

Jason Hall There's some guidance if you are doing a representation: <https://www.milton-keynes.gov.uk/Agenda%20Item%204>

Lesley Kainey I've emailed them.
