Thank you for your Email,

We have been running this business for five years and we have never had an issue serving alcohol to anyone who is drunk and we never will. There are many 24hr shops, is closing at 1am will not encourage late night drinking. The reason I want to extend the hours is because many local customers who finish work late do not have the chance to purchase alcohol. Anything sold from our store will be sold under the rules and regulations of the council.

Thank you

Mrs Divarshana Manohar
