

Dear James

Below is the explanation for all the points raised by the neighbours in regards to our application for Late night refreshment.

There will be NO COLLECTION after 11 pm and the door will be closed after 11 pm for customer collection.

There will be no issues of Litter in the area due to The Fat Pizza customers. Before we opened the shop in Monkston park there was lot of rubbish next to the shop and this was there for a while when we the lease agreement was going on. We were the one who cleared ALL the rubbish next to the clothing bank and in future we are planning to put a bin outside the shop for any litter to go in it.

We have 2 bins at the back of the shop and those are collected twice in a week on every Tuesdays and Fridays.

I have double glazed glass on the shop front and there is no Noise of fan or the oven which goes out of the shop as they are brand new and these equipments will be serviced after every six months.

There is a door closure on the shop front door which will help prevent door slamming.

All my staff have strict instructions of Good Behaviour in the car park regardless what time of the day it is and I take full responsibility for the same.

As a small and young business in Milton Keynes we are not expecting to be too busy in the late but it will help us to generate some revenue and I am hoping to have 3 to 4 orders in an hour on a weekday and 6 to 7 orders on the weekend. Which will not be cause any traffic or too many drivers on the shift.

If we could be kindly allowed for the below timings would be really helpful.

Monday to Thursday till 1.30 am and Friday and Saturday till 2.30 am and Sunday 01.30 am . I think so these are reasonable timings.

If there is anything else I can do please let me know. Thank you

Kind regards

Vinay Kanwar
