Re: The Craufurd Arms Hotel, 59 Stratford Road, Wolverton, Milton Keynes

I have reviewed the application for the above site. The premise is in close proximity to residential properties hence there is potential for noise disturbance to residents residing in the area. The premise licence application is for the provision of recorded music, boxing and wrestling until 02:00 on Friday and Saturday nights.

There a number of conditions on the licence which if complied with, would prevent any public nuisance. Also I note that there is an extensive management plan in place which if fully implemented should ensure that patrons and entertainment do not a nuisance to any local residents.

I would like to bring to your attention that condition 2.13 (in relation to a sound limiting device) refers to inaudibility:

*“....to ensure that noise from entertainment is **inaudible** at any noise sensitive boundary....”*

Your management plan also refers to inaudibility in a number of places. Whilst you have not requested an amendment to this condition, I would like to highlight that you may find it difficult to comply with this condition.
