2. Brief introduction

- 2.1 The Milton Keynes Joint Health and Wellbeing Strategy 2015 – 18 was recently refreshed using a bottom up approach working across partners and local communities.
- 2.2 The strategy sets out key priorities in relationship to both people and place. In relation to people, the three priorities are:

Starting Well: giving every child the best chance in life. To improve the start in life for children with those in greater need receiving more support.

Living Well: working with communities to live longer and healthy lives. To reduce the number of premature deaths, improve mental health and reduce unacceptable levels of health inequalities in these areas
Ageing Well – improving outcomes for older people. To support older people with common mental health problems and prepare services for the increasing pressures of demographic, social and economic changes.

- 2.3 In relation to place, the priority is: Making Milton Keynes a healthy city. To maximise the opportunities for the environment of Milton Keynes to support healthy living for our residents.
