

PLAY AREA REVIEW GROUP

25 SEPTEMBER 2012

PLAY AREAS PER ESTATE

The table below shows the number of play areas in each estate. The data has been sorted in order of those with the most play areas per head of population down to the least. The shaded ones highlighted are those which would have been given permission under the currently local planning policy. The ones highlighted with the outlined squares in black are still to be constructed. The solid black square is the total predicted population in the Western Expansion Area.

Area	Population 2011	Population Projection 2019	Current number of play areas & planned	Population per play area projected 2019
Galley Hill	650	650	8	81
