

JOINT HEALTH AND SOCIAL CARE BOARD VISION STATEMENT

" We will know we have succeeded when: -

- People are encouraged to self manage their health and well-being
- People have the information and support to make healthy lifestyle choices
- Health and social care services offer expanding options, including near to home treatment and support
- Services reflect the needs of individuals and are fair and equitable
- The best care possible is provided within the resources available
- Most people have their health and social care needs met in the community
- There is joined up health and social care planning linked to housing, leisure, transport and employment
- All this is delivered in partnership."
